MILJÖKUVERT

Dec 15, '92

Dear Steve and Susan —

God Jul - Merry Xmas!

I am sitting here at 9 am in my studio/apartment with one candle romantically lighting up the dark morning.

I do have electricity.

A few days ago the snow made the town picture perfect, but now the ground is bare and wet.

The apartment/studio was not ready when I got here so I have been living in a strange state where I can't find the simplest things like tape, paper ... Nothing.

Now I am here. Although the place is still not quite ready. It is beautiful! Will send pictures later.

It will take me a ~~couple~~ couple of months to have some kind of order. The other day I bought many bookcases that are coming after Xmas. It feels good to know that I soon can unpack and start living here for real ... to start some artwork.

People have been most helpful with all the rules and regulations that one must navigate, even the customs people have been very supportive.

You were wonderful to me... and I thank you. THANK YOU!!

Without you the last days in San Francisco would have been very difficult for me. I am a bit surprised that everything has gone so smoothly.

Will be good to see you here, soon I hope.

Warmest greetings
Love, Gunn
